REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1-11,13-30 are considered allowable since when reading the claims in light of the specification, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims. As to claims 1-11,13 and 14, the prior art of record does not teach a plurality of counters indicative of a level of bandwidth consumption of each of the packet processors; a controller for analyzing the level of bandwidth consumption of each of the packet processors based on the plurality of counters and allocating a data packet to one of the packet processors having a lowest level of bandwidth consumption. As to claims 15, the prior art of record does not teach a plurality of cross-bars for receiving the second set of input streams from the packet processors, multiplexing the second set of input streams, and providing a second set of output streams. As to claims 16-24, the prior art of record does not teach determining, based on the bandwidth consumed by the packet processors, which one of the packet processors has consumed a least amount of bandwidth; allocating a next data packet to the one of the packet processors which has consumed the least amount of bandwidth. As to claims 25-30, the prior art of record does not teach determining, by the controller, which one of the packet processors consumed a least amount of bandwidth; and allocating the data packet to the one of the packet processors that consumed the least amount of bandwidth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
